

Reusable Trocar System

Your cost-effective solution to disposable trocars

Aesculap Surgical Technologies — Endoscopy

AESCULAP[®]

Reusable Trocar System

Save money and reduce waste with Aesculap's Reusable Trocar System. The exceptionally light weight, low profile and ergonomic design provides hospitals with a cost-effective alternative to disposable trocars.

Simple

- Modular construction ensures optimal cleaning after use
- Color coded system allows easy identification of compatible components

Innovative

- Optimal weight distribution balances the trocar when inserted in the abdomen
- Low profile design of 3.5 & 5 mm sizes is ideal for application in single port procedures
- Choice between single-use, bladeless dilating and fully reusable obturators

Cost Effective

- Dramatically reduces cost & waste per case compared to fully disposable trocars
- Rapid payback provides a high return on investment
